
Q-learning on the product MDP
SF-FSA-VI over SFOLS
Lazy SF-FSA-VI, Q-learning
Lazy SF-FSA-VI, metapolicy (ours)
(a)
Windy: a new task
relative regret
environment steps on the task
(b)
Windy: sequence of tasks
environment steps ($\times 10^6$)
tasks solved
(c)
Office, $p = 0.1$: a new task
relative regret
environment steps on the task
(d)
Office, $p = 0.1$: sequence of tasks
environment steps ($\times 10^6$)
tasks solved
(e)
Office, $p = 0.3$: a new task
relative regret
environment steps on the task
(f)
Office, $p = 0.3$: sequence of tasks
environment steps ($\times 10^6$)
tasks solved
(g)
Double slit: a new task
relative regret
environment steps on the task
